

REPUBLICANS TALK OF "TAKING AMERICA BACK"
and "RETURNING AMERICA TO A BETTER TIME"
— BUT what TIME and what ERA?

What **YEAR**
DO YOU
WANT?

T.T. 05

OKAY, REPUBLICANS ARE RIGHT. LET'S
TURN BACK THE CLOCK!

TIME TRAVEL IS DIFFICULT, but it can be necessary. Have you seen what young people have been **getting away with lately?** With their video transmitters and civil rights, for instance? We must take America back, and one key agenda of a Trump organization will be an end to electricity.

TURN BACK (TO WHAT?)

No more electricity means No more phones and No more light bulbs! **Your life will be GREAT, so you WON'T CARE.** You'll love your great job in **Trump American Industries.** So, sign in with your supervisor, pick up your daily shovel and dig, dig DIG!

THERE WILL BE ONE approved appliance in every home, and that will be a 140-character text bot, which will communicate daily chirps from Your Leader.

Let's Get Rid of Hospitals

Hospitals are so wasteful, with their soaps and their loud beeping machines. We need to get rid of hospitals and put the best people on the job to heal America. Because we're not doing that, folks. Seriously, it's embarrassing. Every home in **Trump American Industries** will be equipped with its own shotgun. Requires no electricity, and when grandpa's sick, just SHOOT HIM!
